Personal Website

- 🌐 <https://aksprof.netlify.app/>

I am a Junior front-end developer aspiring to be a full-stack developer. As a student, I have many goals and dreams, and to achieve them, we need to do a lot of hard work and have a lot of determination... Well, that's what I am here for. I am looking forward to any internships, projects, or anything which will help you out in any way possible.

EXPERIENCE

May 2023 - July 2023

Web Developer Intern . *Datameadows*

- made a full-fledged company website with my team using HTML, CSS, and Javascript
- Communicated clearly with web development teams, ascertaining daily tasks and completing to exact direction.
- I have managed projects and web strategic planning for the entire team.
- I designed the layout and graphics to enhance the aesthetics and appearance of the website.
- I created backup files on servers and directories to avoid data loss.

July 2022 - Nov 2022

Data Analyst Intern and a fundraiser . *Confederation of Empowerment Initiatives (CEI)*

- As a "fundraiser", I started a campaign and gained funds to help my team and the organization.
- Increased charity community and regular supporters by building strong relationships through social media.
- Established new fundraising events and approaches to maximize donations.
- Collaborated with marketing and promotional teams, developing opportunities to combine awareness and fundraising.
- Recruited fundraising volunteers to support events, appeals and collections.
- Researched and targeted charitable trusts to build long lasting relationships with potential donors.
- As a "data analyst", I helped the organization by using my analytical skills to do what is good and what is better and how will the company / NGO grow so that people who are in need will know that we are by their side.
